# MITSUBISHI MOTORS **DIAMOND PROTECT**

Genuine car care program to protect your vehicle inside and out.

## Mitsubishi Motors Diamond Protect Graphene Ceramic Paint Protection\*

The Diamond Protect Graphene Ceramic Paint Protection is scientifically developed with Graphene to bond to your vehicle's paintwork. Once applied, the invisible barrier will bond to your car's paint, offering exceptional long-term protection against tree sap, bird droppings and other debris your car might experience on a daily basis.

### – Ultra-Glossy Finish

An intense shine that will last for years to come. UV inhibiting technology guarantees gloss and prevents discolouration and oxidation.

### – Easier To Wash, No Waxing

The graphene ceramic coating resists dirt and grime build-up, making your Mitsubishi vehicle easier to wash and negating the need for wax or polish.

### – Stain Resistant

Protects against a wide range of environmental contaminants such as bird lime, tree sap and industrial pollution.

## Mitsubishi Motors Diamond Protect Plastic & Vinyl Protector\*

Diamond Protect Plastic & Vinyl Protector provides a durable and invisible protective barrier against stains. Your car will be easier to clean and the treated surface will also be resistant to UV-induced discolouration and fading.

### – Stain Resistant

Clear protective layer makes it easier to wipe off marks.

### – Sun Protection

Blocks UV rays and prevents cracking and fading caused by sun exposure.

### – Repels

Repels common spillages and dirt.

\*National Lifetime Warranty. Warranty issued by Protection Brands Pty Ltd ACN 160 443 498. Warranty Terms and Conditions available at point of sale. For additional information, contact your local Mitsubishi Motors dealership.

## Mitsubishi Motors Diamond Protect Leather & Fabric Protector\*

Diamond Protect Leather & Fabric Protector binds to every fibre and surface of carpet, leather and fabric in your vehicle. Adding this protective layer means the treated areas are no longer vulnerable to staining and can be cleaned with a simple wipe down.

### – Copolymer Technology

Coats and shields every fibre and surface.

### – Preserves

Maintains your new leather look and smell.

### – Sun Protection

Blocks harmful UV rays.

### – Protects

First line of chemically bonded defence against food and water based liquid spills.

### – Stain Resistant

Stains are not absorbed by treated surfaces, making them easy to clean.

## Mitsubishi Motors Diamond Protect Antimicrobial Shield

Diamond Protect Antimicrobial Shield is a unique non-toxic coating that combats the germs in your car by forming a barrier on the surfaces of your vehicle's interior cabin. The treatment will sanitise and protect all interior surfaces, and will help to eliminate unpleasant odours. The coating will also leave an invisible film of antimicrobial protection that will continue to work even following interior cleaning.

– Removes 99.99% of germs

– Non-toxic

– Invisible and odourless

– Proven long-acting microbial defence

– Reduces cabin odours such as pet odours, mould and mildew
